Rod Allen B. Agregado
Manager
ProfDev Inc.
Santiago City, Isabela, Philippines

Dear Mr. Agregado:

I am writing to apply for the IT Intern position at ProfDev Inc. I am currently a third-year Bachelor of Science in Information Technology student at Northeastern College. I am interested in the opportunity because I would like to gain more practical experience and learn how IT work is handled in an actual workplace.

Most of my experience so far has come from school projects. One of our main projects was the RB Minimart Inventory and Monitoring where I served as the system analyst and programmer for the web system. I also worked on RB Minimart Inventory and Monitoring, a companion mobile application focused on monitoring stocks, sales etc....

Through these projects, I have gained experience with HTML, CSS, PHP, C++, SQL, Dart, Flutter, and databases. I also have basic knowledge of computer troubleshooting, hardware assembly, networking, and LAN setup. I am still developing my skills, but I am willing to learn and take on new tasks.

I would be grateful for the opportunity to be considered for an IT internship at ProfDev Inc. Thank you for taking the time to read my application. I look forward to the chance to learn from your team and contribute where I can.

Respectfully yours,

Elimar T. Dulay
Applicant

CAREER OBJECTIVE

To gain practical experience as an IT intern, apply the technical skills I have developed through coursework and projects, and continue learning in a professional environment.

EDUCATION

Bachelor of Science in Information Technology

Northeastern College — Third Year

PROJECT EXPERIENCE

RB Minimart Inventory and Monitoring Mobile

Flutter and Supabase project

- Worked on a Product Monitoring and Sales Monitoring application using Flutter.
- Explored cloud-backed data and authentication with Supabase.

RB Minimart Inventory and Monitoring

Web-based inventory and sales system project

- Worked with product records, inventory management, and sales workflows.
- Practiced PHP, SQL, and JavaScript in a web application.

TECHNICAL SKILLS

- Web Development: HTML, CSS, JavaScript, Bootstrap, PHP
- Programming and Mobile: C, C++, C#, Dart, Flutter
- Databases and Tools: SQL, Supabase, GitHub, Visual Studio Code
- IT Fundamentals: Computer systems servicing, networking, cybersecurity basics

CERTIFICATES / TRAINING

- Cisco Networking Academy: Networking Basics; Introduction to Cybersecurity
- TESDA: Computer Systems Servicing, Computer Networks, and Computer Servers coursework
- Foundational C# with Microsoft; Northeastern College IT Week participation

ADDITIONAL QUALIFICATIONS

- Interest in web and mobile application development
- Willingness to learn, collaborate, and improve technical skills
